▼
- Question:** How do I keep the speed on the app at the lower speed? It keeps switching back to the higher speed!
- Answer:** Hi, thanks for your message. When you selected the speed you want to ride on, then you need to click the " limited speed" at the bottom, when it shows" setting successfully", and it could be fixed. Or you could directly adjust into kids mode, the speed would be in very slow. Hope this could be workable for you.

★★★★☆ Light and sleek. Rated up to 265 lbs.

Reviewed in the United States on December 26, 2018

Color: black | **Verified Purchase**

Light and sleek. Rated 265 lbs. We bought this and a H1 and so far like this one better. It is easier to handle with one handed lifting if you are strong as the middle is smaller. The charger is very similar to the H1. This is only a initial review.

So after a month the unit still works but the plastic hubs are showing some damage and some plastic peices are ratteling around inside. We havnt been gentle with it though ;).

★★★★★ **Great value, great experience so far**

Reviewed in the United States on March 10, 2020

Color: pink | **Verified Purchase**

I did allot of research on hoverboards. What I found was every single one has a few reviews of people saying their's was defective or did nothing but beep. Basically I took a leap of faith guided by my 6 year old daughter's simple request for pink. I have now had this Gyroor for a week and I am very happy with the purchase thus far. First, my daughter loves it and was zipping around all over the place in no time. The lights are bright and colorful. The app is easy to pair and use. I put it in child mode and limited the speed in minutes. It can support 220lbs according to the manual which should make it big brother survivable. Battery life has been excellent and the charge time of 2-3 hours is quicker than I expected. So far my only nit-pick would be I think the cosmetics of the plastic body could be scratched up and gouged pretty easily. But it does feel like a solid piece of machinery. That it comes with a bag is really nice. At this point I feel like I hit the sweet spot of not going too cheap while keeping the price reasonable for a 6 year old. I'll update in a couple months

★★★★☆ **Battery is not so good!**

Reviewed in the United States on April 15, 2019

Color: black | **Verified Purchase**

Battery didn't last more then 30 minutes. Got the item replaced and had the same problem. The company was quick to resolve thing but only refunded to amazon account not to original payment method. I should also mention when it stops working or dies unexpectedly it comes to a complete stop. Making the rider go flying!

★★★★★ **GREAT PRODUCT, GREAT PRICE, FAST SHIPPING!**

Reviewed in the United States on January 16, 2019

Color: pink | **Verified Purchase**

Got this for my granddaughter for Christmas! After setting it up to her mother's phone, it took a couple of days and learning beside something to hold on to while getting the feel of things. (of course we had a few laughs at her dad's expense) She is now scooting around as well as she rides her bicycle. She is having a blast! The slower learning feature was perfect for her to use until she got the hang of riding it.

★★★★★ **My son loves it (UPDATE)**

Reviewed in the United States on September 2, 2020

Color: black | **Verified Purchase**

We purchased this about a year ago and my 9 year old son has a blast with it! It stood up well for some time and then the battery would only last for a few minutes. I saw that the battery warranty was only 6 months but figured I would contact Gyroor directly and see if there was anything they could do. I was pleasantly surprised when they told me they would send me a new battery! Needless to say I am very happy with the product and their customer support.

**UPDATE 1/25/2021** - So Gyroor wound up sending me the wrong battery, and then asked me to ship the entire hoverboard back so they would fix it. I sent it back and they sent me back a hoverboard where the bottom was not fully screwed in and the threads were stripped.

They then sent me another hoverboard that had the SAME EXACT ISSUES. Now they are saying they don't have it in stock and will send me a new one once it is in stock. It has been about 6 months since I had this initially had this issue which is not an acceptable amount of time. If I do finally received a working hoverboard that is also safe to use I will update this review again.

★★★★★ **Best Christmas present ever!!!**

Reviewed in the United States on January 7, 2019

Color: pink | **Verified Purchase**

Bought this for my 11 yr old daughter for Christmas. She loves it. All her friends got one too and paid about the same price but hers is cooler than them all. The Bluetooth speaker works great and is very loud. She jumped on and became a pro in about 15 minutes.

**Question:** can you use it without a phone, my kid, I am buying it for doesn't have a phone?

1  
vote

**Answer:** Definitely! My son never uses a phone when he rides.

By Kati Reed on October 25, 2020

✓ See more answers (3)

**Question:** How do I keep the speed on the app at the lower speed? It keeps switching back to the higher speed!

1  
vote

**Answer:** Hi, thanks for your message. When you selected the speed you want to ride on, then you need to click the "limited speed" at the bottom, when it shows "setting successfully", and it could be fixed. Or you could directly adjust into kids mode, the speed would be in very slow. Hope this could be workable for you.

★★★★★ **Great value, great experience so far**

Reviewed in the United States on March 10, 2020

Color: pink | [Verified Purchase](#)

I did allot of research on hoverboards. What I found was every single one has a few reviews of people saying their's was defective or did nothing but beep. Basically I took a leap of faith guided by my 6 year old daughter's simple request for pink. I have now had this Gyroor for a week and I am very happy with the purchase thus far. First, my daughter loves it and was zipping around all over the place in no time. The lights are bright and colorful. The app is easy to pair and use. I put it in child mode and limited the speed in minutes. It can support 220lbs according to the manual which should make it big brother survivable. Battery life has been excellent and the charge time of 2-3 hours is quicker than I expected. So far my only nit-pick would be I think the cosmetics of the plastic body could be scratched up and gouged pretty easily. But it does feel like a solid piece of machinery. That it comes with a bag is really nice. At this point I feel like I hit the sweet spot of not going too cheap while keeping the price reasonable for a 6 year old. I'll update in a couple months

★★★★☆ **Battery is not so good!**

Reviewed in the United States on April 15, 2019

Color: black | [Verified Purchase](#)

Battery didn't last more then 30 minutes. Got the item replaced and had the same problem. The company was quick to resolve thing but only refunded to amazon account not to original payment method. I should also mention when it stops working or dies unexpectedly it comes to a complete stop. Making the rider go flying!

★★★★★ **GREAT PRODUCT, GREAT PRICE, FAST SHIPPING!**

Reviewed in the United States on January 16, 2019

Color: pink | [Verified Purchase](#)

Got this for my granddaughter for Christmas! After setting it up to her mother's phone, it took a couple of days and learning beside something to hold on to while getting the feel of things. (of course we had a few laughs at her dad's expense) She is now scooting around as well as she rides her bicycle. She is having a blast! The slower learning feature was perfect for her to use until she got the hang of riding it.

★★★★★ **My son loves it (UPDATE)**

Reviewed in the United States on September 2, 2020

Color: black | **Verified Purchase**

We purchased this about a year ago and my 9 year old son has a blast with it! It stood up well for some time and then the battery would only last for a few minutes. I saw that the battery warranty was only 6 months but figured I would contact Gyroor directly and see if there was anything they could do. I was pleasantly surprised when they told me they would send me a new battery! Needless to say I am very happy with the product and their customer support.

UPDATE 1/25/2021 - So Gyroor wound up sending me the wrong battery, and then asked me to ship the entire hoverboard back so they would fix it. I sent it back and they sent me back a hoverboard where the bottom was not fully screwed in and the threads were stripped.

They then sent me another hoverboard that had the SAME EXACT ISSUES. Now they are saying they don't have it in stock and will send me a new one once it is in stock. It has been about 6 months since I had this initially had this issue which is not an acceptable amount of time. If I do finally received a working hoverboard that is also safe to use I will update this review again.

★★★★★ **Best Christmas present ever!!!**

Reviewed in the United States on January 7, 2019

Color: pink | **Verified Purchase**

Bought this for my 11 yr old daughter for Christmas. She loves it. All her friends got one too and paid about the same price but hers is cooler than them all. The Bluetooth speaker works great and is very loud. She jumped on and became a pro in about 15 minutes.

★★★★★ Amazing Go Kart Experience!

Reviewed in the United States on June 19, 2019

Color: blue-T581\*kart | **Verified Purchase** | **Early Reviewer Rewards** (What's this?)

This product was amazing! My kids absolutely love it and cant get enough of it. My husband bought them a hover board and they really enjoyed that. I was browsing amazon and saw this kart from the same store. I knew I had to surprise them all with it! My husband assembled it quick and he absolutely loved it. The next day the kids tried it and had so much fun. It is much safer to ride and could go on all surfaces. Grass is difficult for adults and that doesn't

board and they really enjoyed that. I was browsing amazon and saw this kart from the same store. I knew I had to surprise them all with it! My husband assembled it quick and he absolutely loved it. The next day the kids tried it and had so much fun. It is much safer to ride and could go on all surfaces. Grass is difficult for adults and that doesn't matter.. It is well built and has a ton of

cool features. Would definitely buy again.

★★★★★ **Fun Hoover for the family !**

Reviewed in the United States on May 22, 2019

Verified Purchase

The quality is amazing; it feels very sturdy and strong. It holds my weight of 210 pounds with no problem. I also like how the fiber carbon parts makes it feel strong and look sleek as well.

The dual motor is very responsive and powerful, I was amaze how smooth they are making the self-balancing feature. It is extremely helpful to anyone especially for beginners like me and my wife. It was helpful that the maximum speed of 12.0km/h can be adjusted

using the mobile application and the children and adult modes make it versatile for everyone.

★★★★★ **Buyer Beware!!**

Reviewed in the United States on June 30, 2020

Color: blue-T581\*kart | Verified Purchase

My son enjoyed this hoverboard on his birthday early May for a full 30 minutes, and although he liked it in that very brief time, it died. After contacting Gryoor, they insisted I contact them directly outside of Amazon. They would replace the motherboard for "free." It arrived at their office on May 22 and I have not heard anything since. Essentially, they stole the \$279 I paid. Shame on them.

★★★★★ **This is a great Hoover board!**

Reviewed in the United States on June 29, 2019

Color: blue-T581\*kart | **Verified Purchase** | **Early Reviewer Rewards** (What's this?)

Works great off road or on battery life is good, kids are having a blast with this! Had bought another one just different model and customer service has been very responsive with a problem with the wheel stopping.

★★★★★ **Sturdy Hoverboard and Great Customer Service**

Reviewed in the United States on January 16, 2020

**Verified Purchase**

I purchased this board for my 11 year old son and he loves it! The lights and wheel illumination are great! He loves that both can be changed through the app as well as play music from a device through the speakers on the board. The motors are more powerful than most hoverboards out there. Construction is solid and balanced.

We needed some help from customer service soon after opening it, so I emailed them. A representative responded very quickly and stayed in touch until we were completely taken care of. I feel like Gyroor went the extra mile. It was really nice! Great company and product.

★★★★★ 10/10 fun factor, but be careful!

Reviewed in the United States on October 5, 2020

Color: blue-T581 | Verified Purchase

Just got this for our 8yo son. It's the coolest thing he's ever had. Can't comment on longevity of the product, but initial fun rating is a 10/10. Speaker quality is fine. App control with lights and speedometer are fun but not necessary. It's a little too heavy for him to carry safely on his own. Came charged enough to play around with for a couple hours. He's pretty confident on it after just a few days of riding mostly indoors. Stay away from cabinets and trim. Unfinished basements and outside are best to learn to ride it. Adults be careful. This is not a skateboard, scooter, or a Segway. My wife got on, did 4-5 full speed rotations, and got flung off like it was a mechanical bull.

★★★★★ Best hoverboard so far!! Easy to read manual, charger, and carrying bag included

Reviewed in the United States on May 24, 2019

Verified Purchase

Bluetooth connects easily thru phone  
 and speakers are great!! Loud music!  
 Pretty LED lights inside the wheels.  
 When u connect to app it lets u change  
 the color of the front/back lights and u  
 can also change from adult mode to  
 kids mode for younger kids! Love it so  
 far ❤️

board and they really enjoyed that. I was browsing amazon and saw this kart from the same store. I knew I had to surprise them all with it! My husband assembled it quick and he absolutely loved it. The next day the kids tried it and had so much fun. It is much safer to ride and could go on all surfaces. Grass is difficult for adults and that doesn't matter.. It is well built and has a ton of

cool features. Would definitely buy again.

★★★★★ **Fun Hoover for the family !**

Reviewed in the United States on May 22, 2019

Verified Purchase

The quality is amazing; it feels very sturdy and strong. It holds my weight of 210 pounds with no problem. I also like how the fiber carbon parts makes it feel strong and look sleek as well.

The dual motor is very responsive and powerful, I was amaze how smooth they are making the self-balancing feature. It is extremely helpful to anyone especially for beginners like me and my wife. It was helpful that the maximum speed of 12.0km/h can be adjusted

using the mobile application and the children and adult modes make it versatile for everyone.

★★★★★ **Buyer Beware!!**

Reviewed in the United States on June 30, 2020

Color: blue-T581\*kart | Verified Purchase

My son enjoyed this hoverboard on his birthday early May for a full 30 minutes, and although he liked it in that very brief time, it died. After contacting Gryoor, they insisted I contact them directly outside of Amazon. They would replace the motherboard for "free." It arrived at their office on May 22 and I have not heard anything since. Essentially, they stole the \$279 I paid. Shame on them.

★★★★★ This is a great Hoover board!

Reviewed in the United States on June 29, 2019

Color: blue-T581\*kart | Verified Purchase | Early Reviewer Rewards (What's this?)

Works great off road or on battery life is good, kids are having a blast with this! Had bought another one just different model and customer service has been very responsive with a problem with the wheel stopping.

★★★★★ Sturdy Hoverboard and Great Customer Service

Reviewed in the United States on January 16, 2020

Verified Purchase

I purchased this board for my 11 year old son and he loves it! The lights and wheel illumination are great! He loves that both can be changed through the app as well as play music from a device through the speakers on the board. The motors are more powerful than most hoverboards out there. Construction is solid and balanced.

We needed some help from customer service soon after opening it, so I emailed them. A representative responded very quickly and stayed in touch until we were completely taken care of. I feel like Gyroor went the extra mile. It was really nice! Great company and product.

★★★★★ 10/10 fun factor, but be careful!

Reviewed in the United States on October 5, 2020

Color: blue-T581 | Verified Purchase

Just got this for our 8yo son. It's the coolest thing he's ever had. Can't comment on longevity of the product, but initial fun rating is a 10/10. Speaker quality is fine. App control with lights and speedometer are fun but not necessary. It's a little too heavy for him to carry safely on his own. Came charged enough to play around with for a couple hours. He's pretty confident on it after just a few days of riding mostly indoors. Stay away from cabinets and trim. Unfinished basements and outside are best to learn to ride it. Adults be careful. This is not a skateboard, scooter, or a Segway. My wife got on, did 4-5 full speed rotations, and got flung off like it was a mechanical bull.

★★★★★ Best hoverboard so far!! Easy to read manual, charger, and carrying bag included

Reviewed in the United States on May 24, 2019

Verified Purchase

Bluetooth connects easily thru phone  
 and speakers are great!! Loud music!  
 Pretty LED lights inside the wheels.  
 When u connect to app it lets u change  
 the color of the front/back lights and u  
 can also change from adult mode to  
 kids mode for younger kids! Love it so  
 far ❤️

**Question:** For everyone that gave this hoverboard 4 to 5 stars, how long have you been using it without any problems?

**Answer:** 2 years, we've had it and my 13yo isn't easy on stuff. Many family members have tried it also at campgrounds. Still works great with good battery life.

**Question:** What app to download? and from where? looked on android play store, and didn't find anything with the name gyroor. also, some of the answers regarding app are confusing -- some say it works with app, other say it doesn't.

**Answer:** Hello, thanks for your question. Gyroor new version hoverboard with app is on sale now, and the app name called Gyroor, it can be downloaded at smartphone store or scan the QR code at the back of the user manual.

- Question:** Why does my G2 only charge for 30 min before the charging pack says it is fully charged but the led lights are red when riding?
- Answer:** Does it still last long when riding? My son's does that but I notice that it's blue on one side and red on a other. I dont think it has to do with the charge.... His lasts several weeks before needing to recharge. He just rides off and on, not long rides.

▼
- Question:** is this hoverboard FAA compliant, can it be shipped or carried aboard a commercial aircraft?
- Answer:** no hoverboard can be carried on an aircraft. EVEN if the battery power is below TSA and FAA regulation they all say the same thing "it down to the individual airline". The airlines say specifically no hoverboards. I wrote this: <https://thetechiegyuy.com/can-travel-flight-electric-skateboard/>

★★★★★ **BEST hoverboard!!**

Reviewed in the United States on August 15, 2018

Color: black | **Verified Purchase**

We got this for our 13 yr old daughter! We love the app you can download on your smartphone. The app has a self balancing mode, adult mode, you can set the speed limit, change LED lights, shut the hoverboard down and a few other functions. We think it is a lot better than the others because of the rubber tires. My daughter even brings it in (after cleaning the tires) and rides it around on our hardwood floors with no damage to them. The speakers on it are great too!!

★★★★☆ **Great Product**

Reviewed in the United States on November 27, 2018

Color: black | **Verified Purchase**

This was my first hover board wasn't sure how long it would take me to learn to ride it. After like 30 minutes of training on my own against a wall I was able to ride it with no problems.

The only thing I find bad about this hover board is that every time it starts up it makes a really loud starting indicator noise and says Bluetooth on which I wish I could switch off. Also sometimes when I get off and if it hits something it keeps beeping and won't stop until I power off and back on again.

Apart from these two things I think the hover board is pretty great.

★★★★★ **Best Hoverboard on the market**

Reviewed in the United States on September 12, 2018

Color: black | **Verified Purchase**

This Hoverboard is absolutely the best on the market. Its fast and extremely sturdy. Made of quality materials. The Hoverboard is a bit pricey compared to the cheap plastic knockoffs, but you get what you pay for. Would purchase again and I definitely recommend this product.

P..s.

You can charge the battery from 0 to 100 real quick. Yeah under 3 hours and u get approx. 10 miles with a full charge.

★★★★★ **Worth it!**

Reviewed in the United States on August 3, 2018

Color: black | **Verified Purchase**

Easy to use once you get the hang of it. Lights are awesome as is the sound system. Getting the app on an iPhone was a bit difficult. Self balancing feature nice. Functionality is bar none. Doesn't work too well on the grass, haven't tried on gravel. App works well, wish it could change to mph instead of kph.

★★★★★ **Problems with Shaking and stopping**

Reviewed in the United States on October 9, 2018

Color: red | **Verified Purchase**

I bought 2 of these hover boards for Christmas during the Amazon customer appreciation event in July. In October the kids just couldn't wait any longer so I gave them their boards early while the weather was still nice. They loved them! However within a few hours of using them, one of the boards was shaking and stopping. My grandson has fallen off twice and injured himself because of this defect. I would love to give this 5 stars because it is well made and the kids love them. But the shaking and stopping is not safe and negates any Positive benefits. We have tried to contact seller but not successful yet.

★★★★★ **Super fun!**

Reviewed in the United States on August 9, 2018

Color: black | **Verified Purchase**

Bought this because hubby was jealous of our boy's hover board. The higher weight capacity and off road tires are a huge selling point. Easier to ride than the smaller kid size, more stable feeling. Had an issue with the charging port but Gyroor took care of it no problem!

Reviewed in the United States on July 10, 2018

Color: red | **Verified Purchase**

such a great hoverboard! very easy to ride even for a first-time rider and my kids just got on and within minutes they were zipping around the house. Great quality, cool lights give it that futuristic look and it seems to hold a charge for a long time. The tires are massive which gives the board a really good height, comfortable ride, and even riding outside on lawn is no problem. Highly recommended!

**Question:** What is the range on full battery

**Answer:** A recent trip was 2.2 miles total on asphalt with 1 very steep hill, and two medium hills. The rider was a child that weighs about 65 pounds. This used about 50% of the battery life. In Roughly 1 1/2 hours use.

OS

★★★★☆ **OK but not for cart attachment.**

Reviewed in the United States on January 21, 2021

Color: Soild tire-black | **Verified Purchase**

I like that it is easy to use once you learn to get on it. I thought I had mastered it after using it a few minutes but then I went on it to show my son and I went down hard. I don't know if I stepped on it wrong but I have not had any other accidents like that. Plus, I have been keeping it on the children mode which I think helps.

The speakers sound good!

The child setting is best for learning. It "limits" the speed to 3.6 MPH. I say "limit because" it doesn't really limit the speed. More on that later.

I choose this model because I thought it is capable of going 10mph but frankly, I don't feel safe going over maybe 6 mph.

Now on to the things that disappointed me.

I purchased this with the plan to use it with a cart attachment but when attached a cart to it, I found it difficult to control. The hoverboard would speed up very rapidly even when set to children

## ★★★★☆ Very unhappy with this hoverboard.

Reviewed in the United States on March 12, 2021

Color: Soild tire-blue | **Verified Purchase**

I bought this hoverboard for my 2 kids.

It arrived fairly quickly and the packaging was OK.

The first problem: one side of the power supply cord was missing (power outlet plug to power transformer). I felt like returning it right then, but the kids really wanted to try it out so I had to create a makeshift connector using an old laptop power cable to charge the battery up. It took about 3 hours until it was fully charged. I emailed the seller and they sent me an entire power supply in about a week.

This unit worked OK for about 2 weeks and then, suddenly, it stopped balancing, meaning the left side was tilted forward at all times while the right side was level to the ground. It was still possible to ride it, but it just wasn't right. I tried re-setting it using the manual provided to no avail. At that point I decided to return it.

Couple more notes that are not critical, but should be a good FYI for those who consider investing in this thing:

**Question:** What is the range on full battery

**Answer:** A recent trip was 2.2 miles total on asphalt with 1 very steep hill, and two medium hills. The rider was a child that weighs about 65 pounds. This used about 50% of the battery life. In Roughly 1 1/2 hours use.

★★★★★ Are you still looking for a hover board? you can stop now!

OK I don't know where to start but before I was buying hoverboards on the Amazon and those Hoverboards have been working the most for couple months before they break. I even told my kids I'm not buying hoverboards anymore! Because it's a waste of money, they just keep breaking! Until I bought GYROOR hoverboard! I bought one for my son and he loved it! So my second son asked me to buy one for him too. So it has been six months since we own GYROOR hoverboards and

did not have any problem!

I like that it is easy to use once you learn to get on it. I thought I had mastered it after using it a few minutes but then I went on it to show my son and I went down hard. I don't know if I stepped on it wrong but I have not had any other accidents like that. Plus, I have been keeping it on the children mode which I think helps.

The speakers sound good!

The child setting is best for learning. It "limits" the speed to 3.6 MPH. I say "limit because" it doesn't really limit the speed. More on that later.

I choose this model because I thought it is capable of going 10mph but frankly, I don't feel safe going over maybe 6 mph.

Now on to the things that disappointed me.

I purchased this with the plan to use it with a cart attachment but when attached a cart to it, I found it difficult to control. The hoverboard would speed up very rapidly even when set to children

Andrey S.

★★★★☆ **Very unhappy with this hoverboard.**

Reviewed in the United States on March 12, 2021

Color: Soild tire-blue | **Verified Purchase**

I bought this hoverboard for my 2 kids.

It arrived fairly quickly and the packaging was OK.

The first problem: one side of the power supply cord was missing (power outlet plug to power transformer). I felt like returning it right then, but the kids really wanted to try it out so I had to create a makeshift connector using an old laptop power cable to charge the battery up. It took about 3 hours until it was fully charged. I emailed the seller and they sent me an entire power supply in about a week.

This unit worked OK for about 2 weeks and then, suddenly, it stopped balancing, meaning the left side was tilted forward at all times while the right side was level to the ground. It was still possible to ride it, but it just wasn't right. I tried re-setting it using the manual provided to no avail. At that point I decided to return it.

Couple more notes that are not critical, but should be a good FYI for those who consider investing in this thing:
